Rescinding Critical Storage Injection Notice - #5288

Southern Star Central Gas Pipeline, Inc. "Southern Star" will be rescinding the Critical Storage Injection Notice effective gas day Friday, July 6, 2012. As mentioned in Notice #5288, (issued on June 27, 2012) whereas gas deliveries into the Webb Storage Field in Blackwell, OK were unavailable due to crankshaft problems at the Webb Compressor Station, those repairs have been completed and injections are now possible. Southern Star appreciates its shippers' compliance with the guidelines during the critical notice period. However with storage inventories at high levels, Southern Star asks that storage customers continue to ensure their accounts do not exceed 100% of their Maximum Storage Quantity (MSQ). In addition, incremental park services will not be allowed and all overrun and paybacks will require prior authorization.
