

INFORMATION REGARDING REPORTS BEGINNING OCTOBER 1, 2021

The upgrade to the Pathed Non-Threaded scheduling model will result in updates to several shipper and operator reports.

Reports ran with an effective date equal to or greater than October 1, 2021 will contain these updates.

Most reports had only minor changes to the data contained in the report. However, a few reports needed to be replaced.

Below is a list of the reports that have been replaced along with the corresponding new report number and name.
