Point Operator Confirmation Election Form

Point Operators electing to confirm all transactions (explicit/**active**) agree to:

- Submit a separate communication expressly confirming each nomination transaction. This is a 7 day a week commitment to include holidays.
- If no communication is received by the confirmation deadline, then the lesser of the new nomination or previously scheduled nomination continues to apply.

Point Operators electing to auto-confirm/**passive**):

- Are relieved of the obligation to send a separate communication of confirming the nomination transactions that are correct. Point operators need only respond to those nomination transactions where they disagree.
- If no communication is received from the point operator by the confirmation deadline, Southern Star may assume the nomination as submitted is confirmed.

The screenshot shows the Southern Star Central Gas Pipeline website interface. On the left is a navigation menu with categories like Customer Activities, Informational Postings, and Downloads. The main content area is titled 'Downloads' and contains a table with the following data:

	Posting Category ▾	Effective Date/Time ▾	End Date/Time ▾	Posting ID ▾	Subject ▾
