# STORAGE LOCATIONS

#	<u>FULL LOCATION DESCRIPTION</u>	<u>APPLICABLE RATE SCHEDULES</u>
999020	Production Area Storage	FSS & ISS
999021	Market Area Storage	FSS & ISS
999022	Market Based Rate Production Area Storage	FS1 & IS1
999023	Market Based Rate Market Area Storage	FS1 & IS1
999060 *	Production Area Storage Transmission Fuel	FSS & ISS
999061 *	Market Area Storage Transmission Fuel	FSS & ISS
999062 *	Market Based Rate Production Area Storage Transmission Fuel	FS1 & IS1
999063 *	Market Based Rate Market Area Storage Transmission Fuel	FS1 & IS1

\* These locations are used on storage withdrawals only. These locations are used when the withdrawn quantity is to be delivered to another shipper and not used by the shipper holding the storage contract. When these locations are used, the transmission fuel charge is passed to the transporting shipper.

## STORAGE INJECTION (06 TT) AND OVERRUN INJECTION (12 TT)

- 1) Storage injections originate with a receipt nomination at a determined point,
- 2) Followed by a delivery to the storage location,
- 3) Which is then transported on a path nomination,
- 4) To ultimately be received on the storage contract using either the 06 or 12 transaction type.

# STORAGE WITHDRAWAL (07 TT) AND OVERRUN WITHDRAWAL (13 TT)

Receipt Nominations

- 1) Storage withdrawals originate with a delivery nomination out of the storage contract using either the 07 or 13 transaction type,
- 2) Followed by a receipt from the storage location,
- 3) A matching delivery nomination to any delivery location,
- 4) And lastly, a path nomination to transport the receipt to the delivery.

# ONE SIDED NO-NOTICE NOMINATION (22 TT)

This transaction type is used to inject into a TSS storage account using only the TSS contract. It is most beneficial when the receipt is in the production area and the storage is in the market area. The TSS contract used must have both production area and market area transport.

Receipt Nominations														
Beg Dt	End Dt	TT	Rec Loc	Srv Req K	Loc Zone	Up ID / Up ID Prop	Rec Qty	Rec Qty Net	Pkg ID	Rec Rank	Cycle	Fuel	Bid Up Ind	
07/15/2021	07/16/2021	22	16294	TS15	P	079254828	10	10		500	TIM			

In this example, location 16294 is in the production area. TS15 has both production and market area transport with the storage located in the market area.

*Thank you!*

A blue ballpoint pen is positioned horizontally, with its tip touching the end of the "Thank you!" text. The pen has a blue barrel and a silver-colored tip. The background of the slide is split diagonally from the top-left to the bottom-right. The upper-left portion is white, and the lower-right portion is dark blue. At the bottom of the slide, there are several overlapping, semi-transparent green shapes that resemble stylized hills or a landscape.
