Comments and Notes:

Location Purpose - MQ - Delivery Location, IJ - Injection Point, MV - Mainline, 7S - Pipeline Segment defined by 1 location (or first of 2 locations), NQ - Pipeline Segment defined by 2 locations (or second of 2 locations), M2 - Receipt Location, SB - Storage Area, WR - Withdrawal Point.

Location Zone - M - Market, P - Production

Loc/QTl - RPQ - Receipt point(s) quantity, DPQ - Delivery point(s) quantity, SGQ - Segment(s) quantity, MLQ - Mainline quantity, SIQ - Storage injection quantity, SWQ - Storage withdrawal quantity

The capacity posted is intended to provide operational information for points operated by Southern Star only and could be limited by lateral or mainline capacity constraints, changes in Btu, location of physical gas received, ambient temperatures, or other related items. All transportation services are subject to the nomination and confirmation procedures as stated in the Southern Star Central FERC gas tariff. Please contact a Southern Star Customer Service and Business Development Representative if you have a request regarding a specific receipt and delivery location transaction.
